**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1, line 3 under "Cross Reference To Related Application", "allowed" has been deleted and replaced with - - US 6,372,332 - - .

Art Unit: 1762

2. The following is an examiner's statement of **reasons for allowance**: The invention is a method of producing a stencil sheet in which a film is coated with a coating material comprising a water-in-oil emulsion having a continuous oil phase containing a resin film former and a resin-free discontinuous water phase therein, the discontinuous phase providing porosity in the final product in accordance with Specification pages 10-11; page 29; examples 1-2.

The closest prior art is US 5843560 which forms stencils but whose coating material lacks the critical water-in-oil emulsion having a continuous oil phase containing a resin film former and a resin-free discontinuous water phase therein. See Affidavits of Oct 4, 2004 and Nov 5, 2004.

It is the Examiner's opinion that the Stated Prior Art does not teach, nor fairly suggest to combine, the cited references to produce the invention in this Application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick J. Parker whose telephone number is 571/ 272-1426. The examiner can normally be reached on Mon-Thur. 6:15am -3:45pm, and alternate Fridays.
